Why choose AstralPool?

A world of sensations

THE ART OF THE BEST HYDROMASSAGE. A refuge where you can submerge your body and soul in a thousand sensations, a space where you can experience and enjoy a high level of well-being, a place where pleasure abounds, a place to contemplate life, a place where the senses prevail.

Combine the infinite blue of the sky over your garden with the crisp air of a starry night. You will feel your anxiety and stress just slip away: the surface covered in balmy steam, your body immersed in sparkling water at 37 degrees and wrapped in tiny droplets and bubbles that envelop your skin. Gentle massages on your back, shoulders and neck.

Let your AstralPool spa lull you into a state of perfect relaxation, give you peace of mind and boundless well-being.

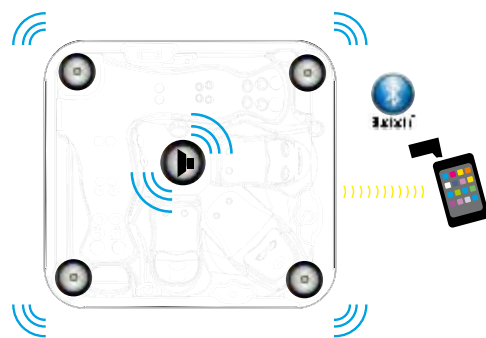

WATER, A FOUNTAIN OF HEALTH

BENEFITS OF HYDROTHERAPY. Humanity has reaped the benefits of hydrotherapy for centuries.

AstralPool hot tubs are the next step forward in healthier bathing. Their regular use will help you gain vitality as they stop fatigue dead in its tracks, relax your muscles, stimulate blood circulation and improve your natural defences.

Submerge yourself in the magic of a spa and you will find out why: while you bask in your tub at an ideal temperature, you will see, hear and feel the water move; you will truly understand why this is a fountain of health and rest. The water will give you a pleasant massage on your muscles, your skin will be caressed by thousands of soothing bubbles, your body temperature will increase slightly to stimulate your circulation, relax your muscles, make your body float, your skin perspire and countless invigorating bubbles will alleviate muscle pain. Your body and mind will let go of stress, nervous tension and daily worries.

WITH ALL YOUR SENSES

AND NOW, RELAX... The natural treatments are one of the tub's main sources of health. Chromotherapy, music therapy and aromatherapy are the perfect complement to a whirlpool tub.

When was the last time you felt relaxed with your eyes closed listening to music? Maybe when you discover the benefits of music and its healing effects you will surround yourself more often in rhythm and harmony, under the relaxing effects of a soak in your tub. The new **Bluetooth audio system** in AstralPool's tubs enables you to play your favourite music from any mobile phone, MP4 player or audio equipment over a subwoofer and

four ambient speakers, without the need for any cables and with coverage of up to 7 metres.

Chromotherapy is a natural technique based on the use of colours to help your mind and body find their natural physical, mental and emotional balance. With the **LUMIPLUS** system, you can enjoy an ambient lighting system that projects colours through **5 LED spotlights** that enable you to choose the colours that match your mood at any given time.

Nobody is indifferent to smells. They bring to mind emotions, memories and ideas. **Aromatherapy** offers the therapeutic properties of pure aromas for a natural treatment and makes a

significant contribution in helping to restore a state of balance and harmony. You can increase the relaxing effect of your tub by adding a fragrance.

Let the most delicate essences flow into your life as the perfect counterpart to a background of harmonious sounds and gently bubbling water. Choose the colour of the water to match your current mood and create the ideal atmosphere for your relaxation. **Now you can truly make your spa a centre of relaxation, health and beauty.**

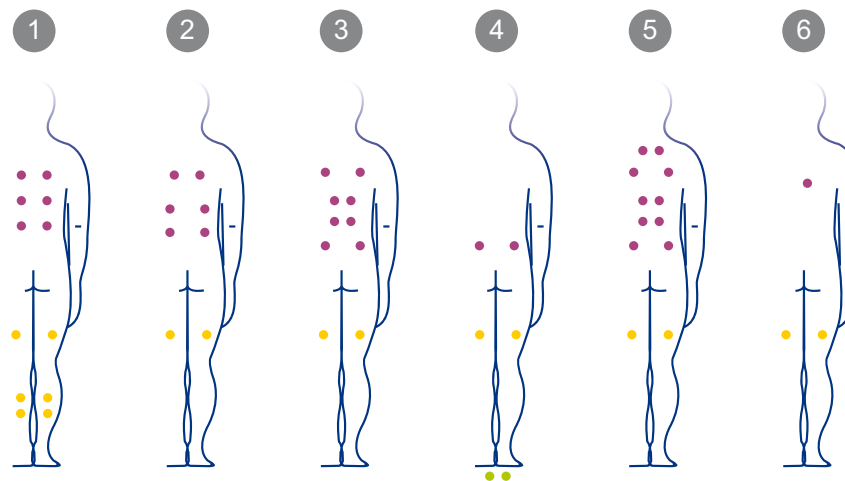

A COMPLETE RELAXATION CIRCUIT...

WE TAKE CARE OF ALL OF THE DETAILS. Our tubs have been designed to offer you total comfort. AstralPool designs and creates whirlpools without leaving out the slightest detail by using the best jets, control panels and the latest technology in ergonomics and tub shapes. Every component is strategically placed to give you the best possible product.

Every seat and lounger has been designed with your body in mind. The jets are strategically placed to allow them to target key points on your body. The air streams and water bubbles can be adjusted to suit your taste by turning the nozzles to control the scope and intensity of a massage.

In addition, our tubs are protected by **EcoSpa**, one of the best heat insulation systems on the market that minimises heat loss and **reduces energy consumption by up to 51%**.

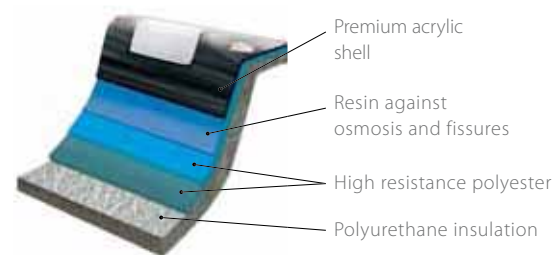

MANUFACTURED USING THE LATEST TECHNOLOGY

AstralPool has been designing and manufacturing hot tubs since 1988. Our long-standing experience enables us to offer extremely reliable products. We market our products worldwide. Our mission is to turn water into an element able to offer the best therapy for your senses. We create exclusive spaces in which you can enjoy the best hydromassage available and the greatest feeling of well-being. The reliability of a leading European brand...

A luxury wellness area for your wellbeing

This overflow spa will surprise you with its innovative “infinity” effect profile and its range of built-in features: full, vigorous massage in all seats, high intensity chromotherapy, aromatherapy, Bluetooth music system, etc.

The unique Tokyo spa can be enjoyed at any time of the year. Its elegance, combined with the latest technology, will make you popular with all of your friends and turn your wellness area into your favourite meeting place. Thanks to its large size, you will be able to share unforgettable moments of fun with up to 7 people; what’s more, a couple can fit in comfortably on the double lounger.

If you’re looking to indulge yourself and relax, this is the ideal spa for you.

SWIMSPA MEDITERRANEA

The revolutionary new **Swimspa Mediterranea** will change the previously-held conceptions we have about spas and pools. The Swimspa Mediterranea is two in one: a pool that can be used for exercise plus a jet massage area where you can relax after a hard day's work... and all this within your own home! In just 10 m², you can enjoy a wonderful, climate-controlled pool in your home that you can use for swimming, aerobic exercise or relaxation.

- Dimensions: **500 x 230 x 138 cm**
- Jets + Nozzles: **25**
- Turbojets: **5**
- Positions (seats/loungers) : **3 (2/1)**

Swim, practice water aerobics or relax

The **Swimspa Mediterranea** offers a place where you can swim or exercise in the water. For swimming, the pool has jets that create a strong current with an easily adjustable intensity that make it adaptable to any user. In very little space you will be able to obtain all the benefits of a large lap pool. In addition to laps, you will also be able to do many water exercises, such as aquagym, in your Swimspa Mediterranea, which also offers many health benefits: it increases circulation, helps correct posture, tones muscles, improves respiration, improves flexibility and strength, improves cardiovascular conditioning and provides deep relaxation... And all of that with the safety of exercising in the water, without the risk of falls or injuries.

PACIFIC 30

The **Pacific** spa is our most popular design among families as six people are easily able to enjoy the pleasure of bubbles at the same time. It satisfies the most stringent demands as it is available in two versions with different sets of fixtures and several massage options.
